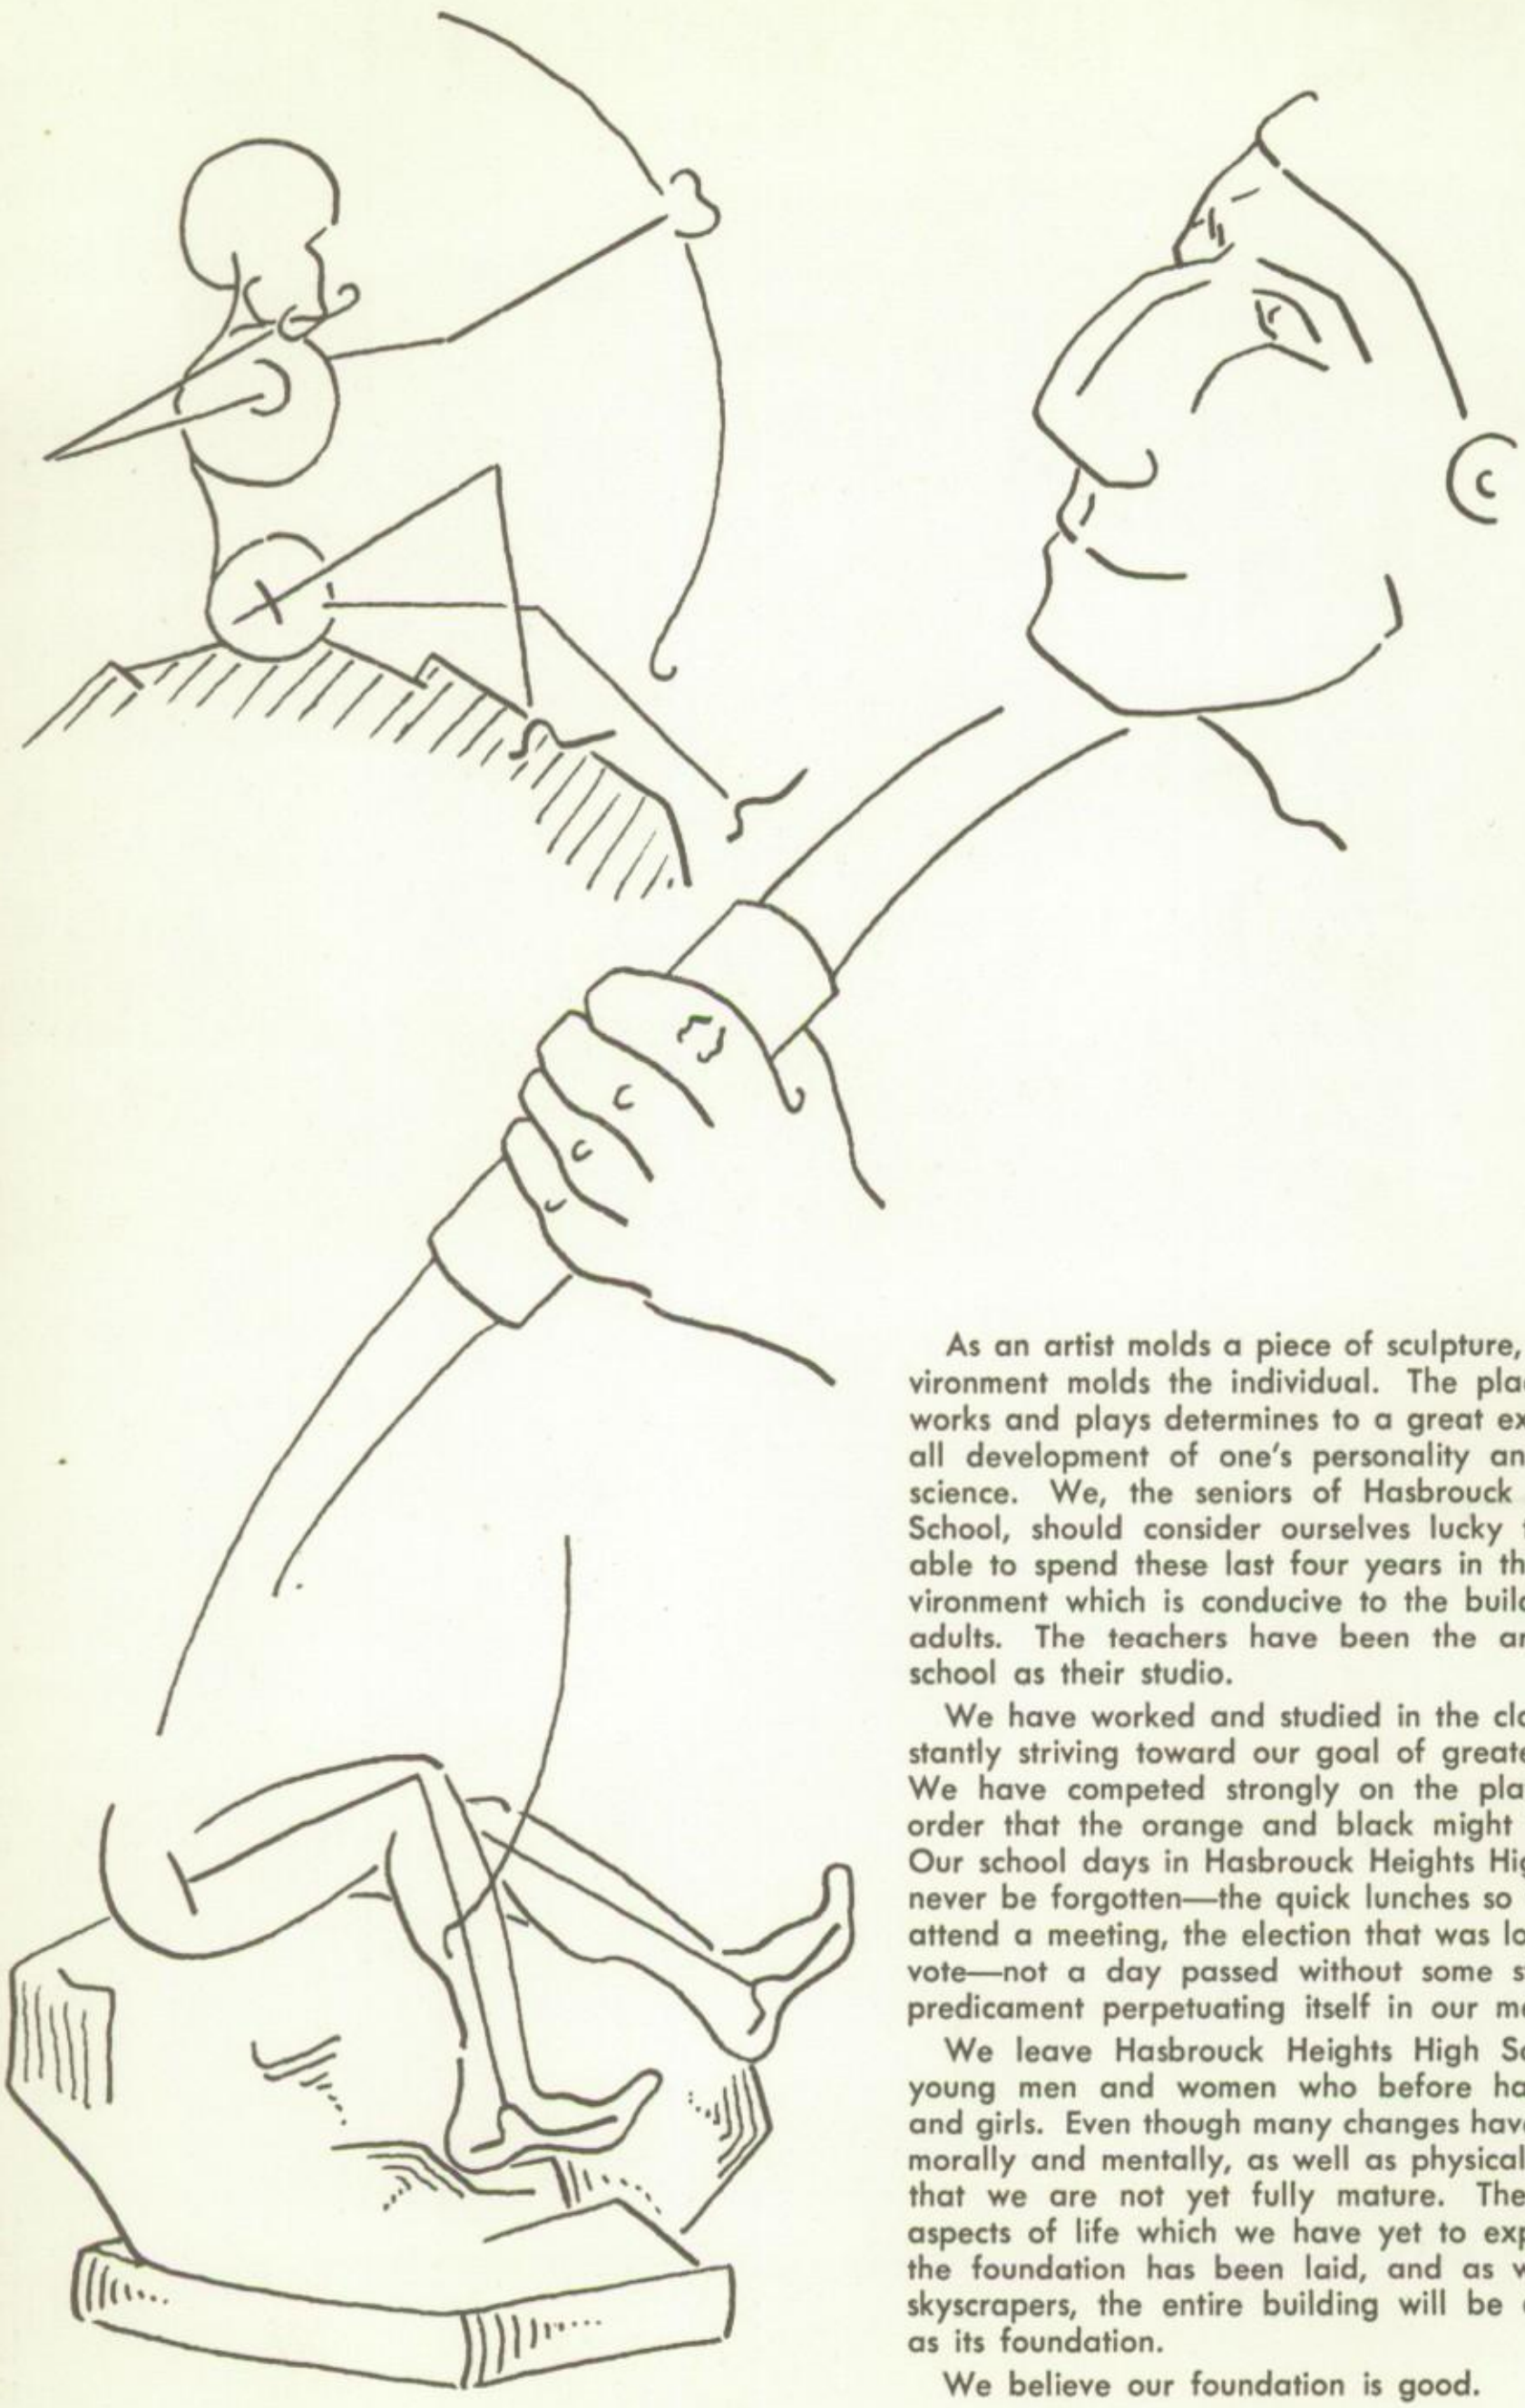
CORONIAN

Hasbrouck Heights NJ.



As an artist molds a piece of sculpture, a specific environment molds the individual. The place where one works and plays determines to a great extent the overall development of one's personality and moral conscience. We, the seniors of Hasbrouck Heights High School, should consider ourselves lucky to have been able to spend these last four years in the type of environment which is conducive to the building of sound adults. The teachers have been the artists with the school as their studio.

We have worked and studied in the classrooms, constantly striving toward our goal of greater knowledge. We have competed strongly on the playing fields in order that the orange and black might fly victorious. Our school days in Hasbrouck Heights High School will never be forgotten—the quick lunches so that we could attend a meeting, the election that was lost by just one vote—not a day passed without some stunt or social predicament perpetuating itself in our memories.

We leave Hasbrouck Heights High School now as young men and women who before had been boys and girls. Even though many changes have taken place, morally and mentally, as well as physically, we realize that we are not yet fully mature. There are many aspects of life which we have yet to experience. Still, the foundation has been laid, and as with the giant skyscrapers, the entire building will be only as good as its foundation.

We believe our foundation is good.

CORONIAN

CLASS OF 1964

IN MEMORY . . .

ONE OF THE BASIC FREEDOMS of the American citizen and an insurance against oppression is the freedom to bear arms. We of this generation, however, have witnessed a tragic abuse of this freedom, the assassination of President John F. Kennedy on the autumn afternoon of November 22, 1964, by Lee Harvey Oswald. Who can say for certain what were the motives that forced this deranged man to kill another? All we know is that the monstrous deed was done and a great man has died.

In school on that warm afternoon, all was going normally, until the news that the President had been shot broke.

At first only apprehension was felt, but later, when we learned of the President's death, the apprehension turned into anger, sorrow, and, in some, into the nervous laughter that is a symptom of shock. Down deep we knew that a truly great man of our times had been brutally assassinated, and only the distance and the sense of incredulity kept us from tears. Because even as we watched on television the events that followed, even as we listened to the radio, even as we read the newspapers, the ramifications of the deed remained unreal to us, and life progressed normally for us. Except that our President was dead.

We had elected him our leader, and lead he did. His will alone shaped our policy, both domestic and foreign, for three years, and his powerful personality is still felt in the government. His will to win carried us through the Cuban crisis and his iron determination forced the Russians from the island. He infused a new feeling of vitality and democracy into our tiring country, and now he is dead. Whatever great goals he might have realized, whatever conquests he might have made, we shall never have a chance to know.

One crazed man had the power to do this to our country, and this is one of the risks of democracy, the jeopardy our leaders are in. John F. Kennedy would have wanted it kept this way, and indeed he died for it.

It is our job now to carry on where our great President left off, and not to let his death be in vain. We must remember him, for it is this commemoration of greatness and right under the eyes of man that has brought this country to the soaring heights of freedom and democracy it possesses. President John Fitzgerald Kennedy must be remembered.

ACKNOWLEDGEMENTS

We, the Class of 1964, would like to express our sincere appreciation to all those who in any capacity took part in producing this *Coronian*. We should like to extend special thanks to Mr. Antonelli for his advice to the yearbook artists; to Mrs. Phillips for her time spent with the typists; to Mrs. Freeman, our financial adviser, for her direction of the magazine sale that made this book possible; to our six understanding and enthusiastic senior advisors for their united efforts; and to the people of Hasbrouck Heights for their generous financial support of our fund-raising projects.

We are also grateful to both the Rae Publishing Company and the Lorstan-Thomas Studios for their professional and personal services.

Special thanks are due for the cooperation given us by Dr. Mohair, our principal, Dr. Bernard, our superintendent of schools, and the members of the Board of Education.

Saving the primary factor for last, we should like to thank Miss Catherine McCabe for her guidance, understanding, and perseverance, without which this yearbook could not have come into being.

BOARD OF EDUCATION

SEATED, left to right: Mr. Frank X. Birkner, president; Mrs. Miriam D. Hochheiser, Mrs. Grace Peters, Dr. Anthony R. Mancari. STANDING: Mr. Joseph Weaver, Mr. Howard F. Krausser, Mr. Kenneth P. Walter, Mr. Leonard J. Wisse, vice-president; Dr. Harry Rhodes, Jr.

LEFT TO RIGHT: Mrs. Hochheiser, Mr. Birkner, Mr. Wisse.

Throughout our four years at Hasbrouck Heights High, we have been fully aware of the important role the Board of Education has played in shaping the future of our lives. The time and the work these nine men and women have sacrificed have brought assurance to every public school student that he is getting the finest education possible.

Through the recommendations of an evaluating committee, the Board has taken to the electorate the problem of expanding the school. They presented to the public a proposal for an addition which got public approval. The Board proposes ground-breaking ceremonies by September, 1964.

The most sincere thanks of the Class of 1964 go to the nine unselfish citizens who have seen to it that our school years have been both productive and enjoyable.

DR. JAMES A. BERNARD

Superintendent of Schools

Hartwick College, Columbia University,
Sorbonne University
A.B., A.M., Ed.D.

Doctor James Bernard arrived in Hasbrouck Heights in 1957, the same year we, the future Class of 1964, were beginning the sixth grade. In the ensuing years, we, now seniors at Hasbrouck Heights High School, have grown in wisdom, stature, and ability. Our ideas and our actions have progressed so that, as young men and women, we can begin to fulfill our life's purpose. By his conduct and personal support, Doctor Bernard has exemplified to us that education is a goal well worth attainment and a privilege not all are able to achieve. We consider him a friend and one who has vigorously striven to improve both our school and the standards found within it.

This year Doctor Bernard has decided to pursue his ideals further in another school system. Certainly, all of us at Hasbrouck Heights High School, knowing the tireless effort Doctor Bernard has put forth in our behalf, express our appreciation and wish him the best of luck in his new position.

DR. MARY E. S. MOHAIR

High School Principal

Barnard College, Columbia University
A.B., A.M., Ed.D.

Dr. Mohair is a person who has shown us great encouragement and understanding throughout our four years of high school activity. Through her guidance and endeavors, we, the Class of 1964, as graduating seniors, are particularly prepared to meet the challenges of life, competent in knowing she has given us a fine example to live by.

This year will be Dr. Mohair's last year as principal of our high school. She has always insisted that each of us wholeheartedly attempt to put forth his very best, and thanks to her determination, we feel that we all have become better individuals and citizens.

We wish Dr. Mohair well in her new position as superintendent of schools. We know that she will be as successful as she has been here at our high school.

"Books are not men, and yet they are alive; they are a man's memory and his aspiration, the link between his present and his past, the tools with which he builds. . ."

The members of the English Department work to develop in their students a deeper understanding of the English language and its literature, a more effective use of it in communication.

In the absence of Miss Hennings, Mrs. Bartlett has acted as head of this vital department. The regular classes have been taught by Miss Isner, Mr. Lang, Miss Meyer, Mr. Mezejewski, Mr. Porcelli.

Within the framework of the regularly assigned classes some juniors have had both English and American History with Miss Meyer and some of the seniors have had the opportunity to do special work in composition, first with Mrs. Austin, and then with Mrs. Zisner, the substitutes for Miss Hennings.

Electives in English have included oral English, dramatics and journalism.

"The structures with which Mathematics deals are more like lace . . . and the play of light . . . than they are like buildings and machines. . ."

The mathematics program at the high school is very diversified. This gives the individual student a chance to develop his career as he chooses. If it is one that involves the simpler of the mathematical skills, there are mathematics I and II, both taught by Mr. Saraby. If it is an education delving more deeply into the metaphysical sciences that the student desires, then the progressive courses of algebra I, geometry, algebra II, and trigonometry, taught by Messrs. Loughlin, Erhard, Marchesi, and Howell respectively, should be the ones that interest him.

Also offered in the curriculum, for the benefit of those who are taking the accelerated science courses, is an accelerated mathematics program. In the junior year, Dr. Marchesi teaches a special course, which is a combination of algebra II and trigonometry. This prepares the students for the college math taken in their senior year, taught by Mr. Howell.

SCIENCE

"Science carries us into zones of speculation where there is often no habitable city for the mind of man. . ."

The study of science not only contributes to a general broadening of a student's education, but also emphasizes the importance of teamwork and systematic thought. The high school offers a curriculum which allows a student to develop his interests and skills in this field to a very high degree.

The first course in the program is general science, in which Dr. Montgomery and Mr. Bolmarcich introduce the fundamental concepts. If a student has shown exceptional ability in junior high, he studies freshman biology. This "study of life" teaches him about his environment.

A sophomore may study either biology under Mr. Mamchur or Mr. Bolmarcich, or chemistry, under Mr. Bishop. Laboratory work shows the second-year student the necessity for precision.

Juniors following the advanced program then progress to the elements of physics with Dr. Marchesi. Those in the regular sequence study chemistry.

As seniors, students who have successfully completed the three basic sciences may elect either advanced biology or advanced physics, consisting of work on college freshman level. In May, the seniors take the Advanced Placement Examinations. If their scores are satisfactory, they will be allowed to start college courses also at an advanced line.

By offering these courses to its students, the high school hopes to develop mature students, who will continue independent work in the biological and physical sciences.

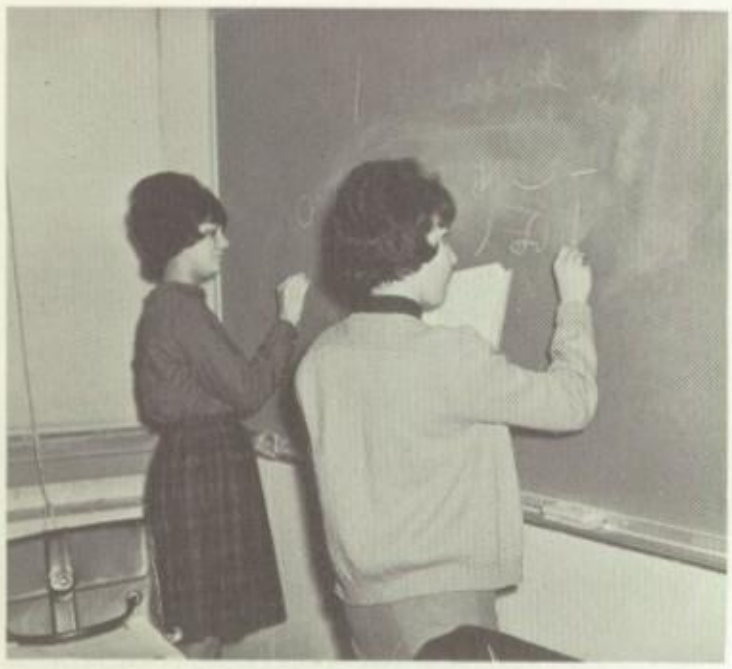
Mr. Fedele heads our social studies department and a staff composed of Mr. Gillespie, Mr. Clarke, and Mr. Barakat. In United States History I, juniors learn the history of our great nation from the first explorers to present days. In United States History II, taught by Mr. Gillespie and Mr. Fedele, the seniors continue their study of the political history of our country and also study its economic development.

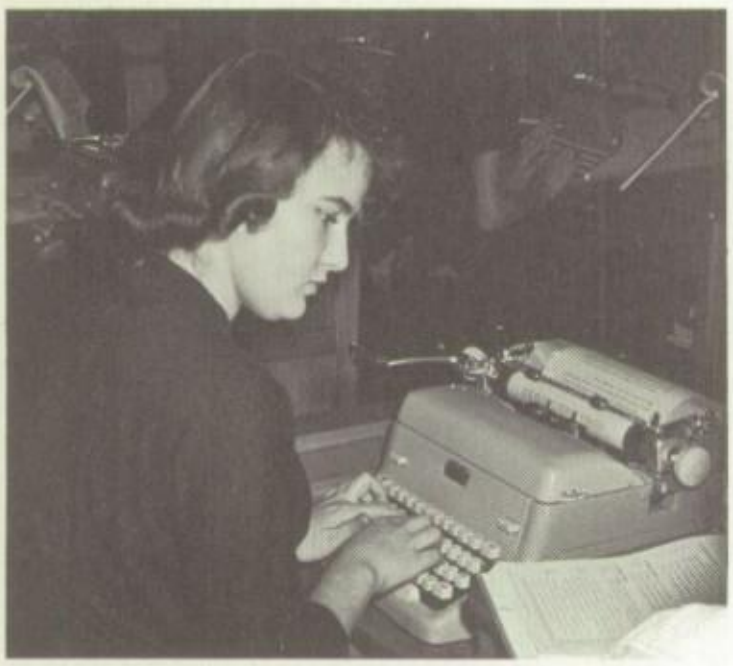
World History, taught by Mr. Clarke, presents the history of man, from prehistoric times.

Mr. Barakat, in Modern European History, teaches the intriguing history of Europe from the downfall of autocracy through World War II.

BUSINESS EDUCATION



R. Bagolie and M. Sartori—*and a basic business skill.*



M. Outwater—*and another basic skill.*

"To those composing it, the business world is a marvel; to those observing, it is even more so. . ."

Hasbrouck Heights High School is very fortunate to have an efficient business course that includes general business training, commercial arithmetic, stenography, office practice, typing, bookkeeping, and business machines. Teaching these courses are Mrs. Phillips, Mrs. Hosler, Mrs. Freeman, and Mr. Godowski, the head of the department.

This year a special program was set up for the girls in Steno. II and office practice. Each girl was placed in an office in or around the Hasbrouck Heights-Teterboro area for on-the-job training. These girls filed, typed, took dictation, used various business machines and practiced good business habits as a secretary for these offices and firms.

A student completing this course has no difficulty obtaining the position of her choice after graduation because of the complete program offered by our school.

FOREIGN LANGUAGES

"Perhaps of all the creations of man, language is the most astonishing. . ."

As we are developing, so is the world making progress. In the past it took weeks, sometimes months, to travel to other lands. But in today's world, jets and oceanliners take us to Europe and the Far East as easily as we travel to another state. Great minds have developed these modern means of transportation. In 1970 we shall see an even greater improvement—a jet that can travel 2,000 miles per hour. There is no limit to the progress we can make in the future.

So as minds develop, the world becomes smaller. Years ago, there was probably little need to know languages of other peoples. To be bilingual was, in most cases, a status symbol; only the rich could afford to travel and use their knowledge. In the wonderful, exciting world at the hands of us in the Class of 1964, however, we shall not have to be well-to-do to travel. Business, professional, and military opportunities offer us the chance to see the world at little cost.

Knowing this, we seriously take to heart our foreign language courses.

At Hasbrouck Heights High School we can develop our skills in German, French, and Spanish. Latin is also offered to those who wish to develop a strong literary and historical background knowledge. Here we learn the languages of European peoples as they are now learning English. With this there will be closer bonds among peoples in the future, and a stronger promise of peace. We must understand others before we can come to agreements with them.

FINE ARTS

"Every genuine work of art has as much reason for being as the earth and the sun. . ."

The Art classes offer a student media of wide variety in which to work; painting, sculpture, and mobiles are just a few examples.

The informal class atmosphere enables each student to pursue his individual interests and it is conducive to originality. With Mr. Antonelli's able assistance, one brings forth his own ideas and personality.

Students are fortunate to receive art appreciation instruction once a week. This part of the course includes films and discussions which add interest and variety as well as cultural education.

Examples of the students' current work is posted on the bulletin boards outside the art room. They add an attractive note to the decor of the corridors.

John Somsky, a member of our class, won a scholarship in state-wide competition for his excellent sculpture of Moses.

STANDING: Mr. Thomson. SEATED: D. Moore, D. Hughes—*at a dance band rehearsal.*

"Music is well said to be the speech of the angels. . ."

Our music department is an especially active one. It is composed of the Band, Chorus, Choir, and two fairly new additions, the dance band and music theory class. They are not merely clubs, but are credited courses in which grades are given.

A member of any one of these organizations must recognize his responsibilities and obligations. He must be willing to attend the required rehearsals necessary to the success of the performances.

We were all proud of our band's football half-time shows and its excellent routine performed at the Teaneck Armory Band Festival. We also were pleased with the performance of our choir at Christmas time in the Plaza. In order to maintain these high standards, the participants must adhere to the policies outlined by the directors.

Miss Borski welcomes interested students to join the Chorus. The more talented members of the Chorus compose the Choir.

The music theory class, band and dance band occupy most of Mr. Thomson's time. However, he is always willing to devote special attention to individual students.

Nancy Christen, from our class, was chosen this year for All-County Chorus; David Hughes, a junior, was member of All-State Chorus and Choir; William Vickery, a freshman, played trombone in the All-State Junior High Band.

Both Mr. Thomson and Miss Borski are willing to help any interested students to develop their musical abilities.

PRACTICAL ARTS

"Work of the hands must take rank as the highest of arts — one which more than any other, ministers to humanity. . ."

In the shop course, taught by Mr. Masucci, the boys who enroll learn to handle machine tools, hand tools, and the equipment foregoing. The valuable field of metallurgy is part of the course, too, since there is such a great demand today for workers trained in this area. Students take this course one period a day as an elective, or two periods a day as a major.

Drafting, blueprints and diagramming are all parts of our mechanical drawing course. Since there is considerable demand in this area for girls who have these skills, Mr. Lewis has a number of female students in his classes. They find the work interesting and challenging.

P. Matthews and D. Blevins share a problem in mechanical drawing.

Mr. Lewis advises T. Kazanchy, as V. Arnone waits his turn.

R. Di Girolamo and R. Warner—and the proof of the pudding!

"This is the true nature of the home — it is a place of accomplishment. . ."

Work in the home economics classes falls into the two general areas of sewing and food preparation. The members of the sewing classes made many attractive articles of wearing apparel and modeled them at the April PTA meeting. Our parents were very impressed.

As always, the members of the cooking classes enjoyed their work—and its products. Faculty guests enjoyed their special lunches and open house parties.

Again this year we have had a boys' cooking class. The chefs took their work very seriously. They also planned, prepared and served several excellent special meals. Another high point in their year was their appearance, complete in puffed white hats and aprons, as part of the fashion show, when they also displayed astounding musical talent.

Mrs. Manners is the instructor for all these courses.

LEFT TO RIGHT: P. Marona, L. Dabinett, J. Damergy, P. Keneally—*"She floats through the air. . ."*

"Health alone is victory. Let all men contrive to be healthy. . ."

Health Education

This part of the curriculum is very important, because every student is required to take gym for four years. This course is taught to the boys by Mr. Depken and Mr. Pevny, and to the girls by Mrs. Sills and Mrs. Austin. When a new addition is put on the building, health will be taught to the freshmen, and first aid to the sophomores. Mrs. Gascoyne also teaches home nursing to the sophomore girls.

"Knowledge is of two kinds; we know a subject ourselves or we know where we can find information upon it. . ."

Library

In our library this year there is a wide assortment of books for the students' convenience. Miss Hetrick, our librarian, helps the students in their research.

Miss Hetrick gave a general course in the use of the library to some of the freshman classes and a course on special resources and techniques for term papers to the juniors.

Driver Education

Our safe-driving class is open to students who are at least sixteen and one-half years old. They learn the proper handling and maintenance of a car, both of which are necessary for intelligent driving. A successful driver must have good character, obey the rules, and keep a level head. These qualities are stressed in the course.

Films further illustrate the need for careful drivers in our multi-automobiled society. Practical appreciation of this training is put to a test when pupils are given six hours of driving practice in the dual controller's car, accompanied by either Mr. Bishop or Mr. Masucci.

"Think on this doctrine — that reasoning beings were created for one another's sake. . ."

Guidance

Since everyone needs guidance not only in their grammar school years but also in their high school years, we are glad to know that people like Mr. Kreitman and Miss Walthers are the guidance directors. Their advice about everything from our future college plans to personal problems helps us develop into mature adults, able to handle some of the problems of our life by ourselves and yet know enough to look for good advice when the problem is too big to handle alone.

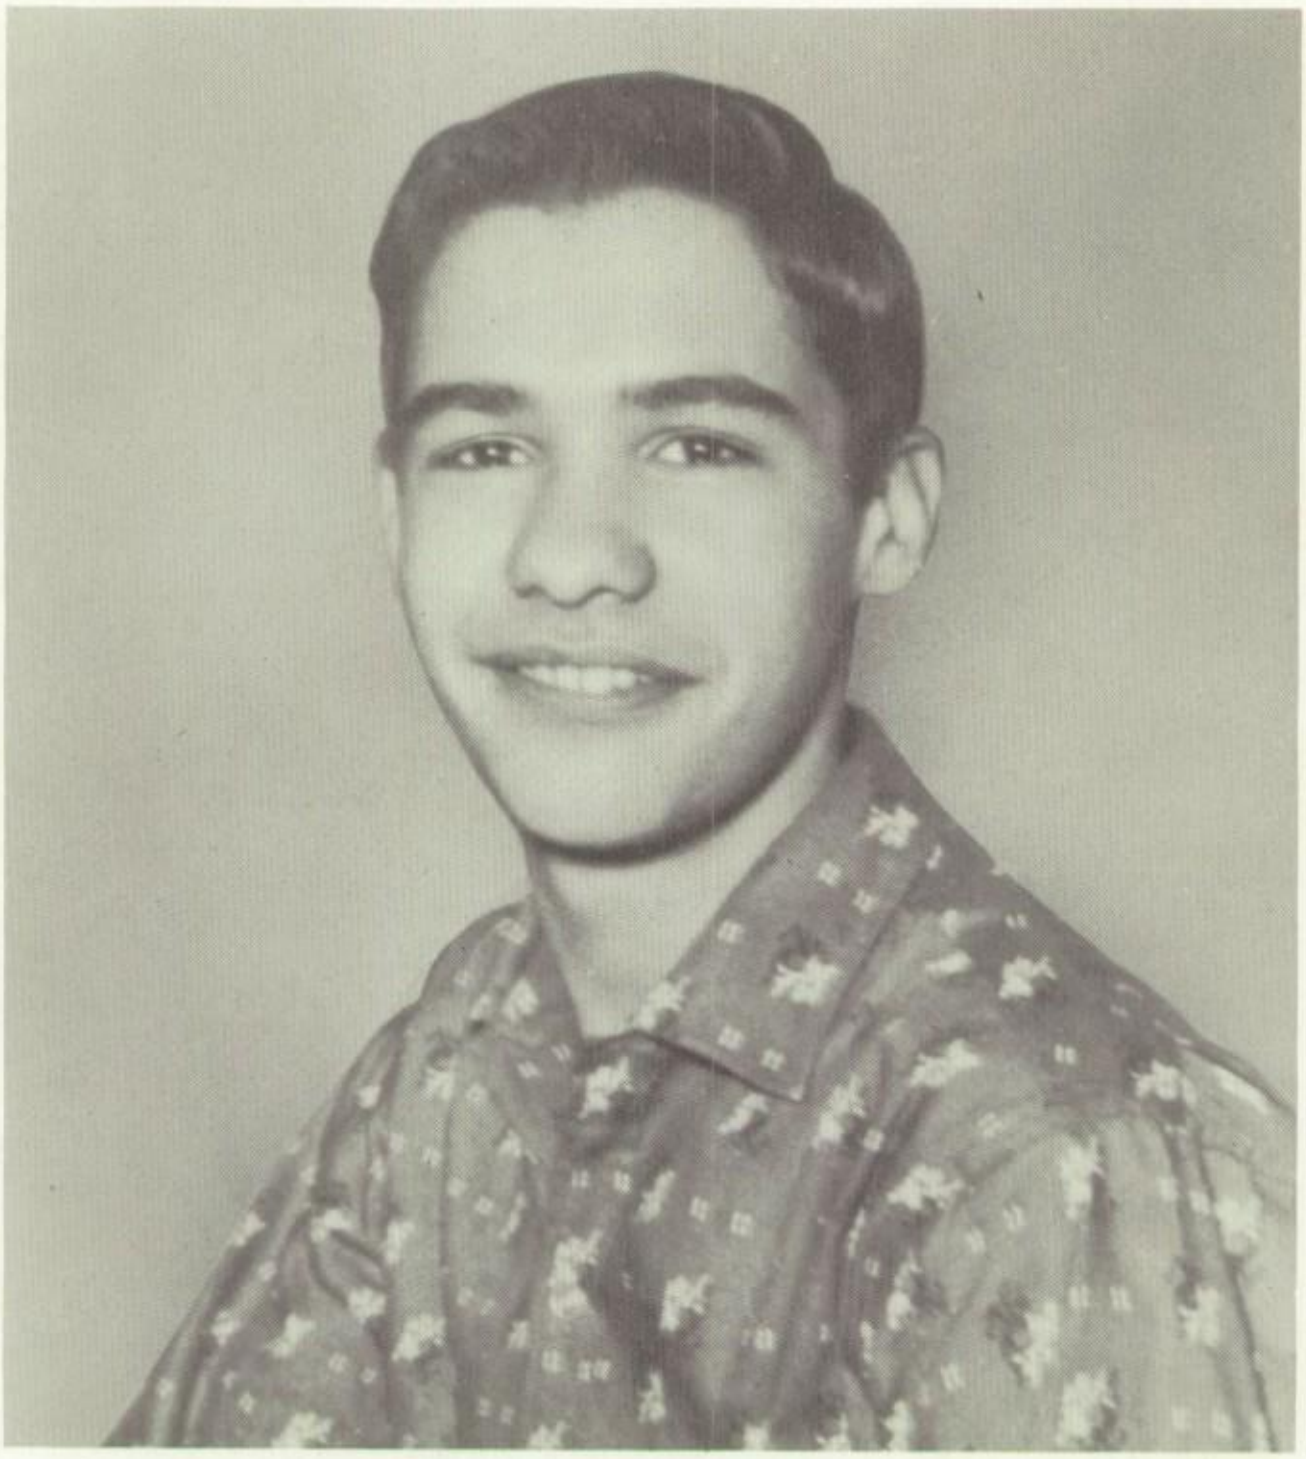
SENIORS

In Memoriam



RICHARD R. HECK

The tragic death of Richard Heck stunned us all. Richard had always been a loyal classmate and companion, and his untimely passing took a bit of something from each of us. Yet Richard will not be forgotten. His amiability, his sincere hard-working nature and his quiet way have earned for him a place in all our memories.

On May 29, we dedicated a bronze plaque to Richard's memory. Its simple wording will tell the classes that come after us how we feel —

We, The Class Of 1964, Dedicate This Plaque
In Loving Memory
Of Our Departed Classmate

RICHARD R. HECK
1947 - 1962

Who Was A Fine Scholar And Good Friend
He Will Always Remain In Our Thoughts

SENIOR ADVISERS

SEATED, left to right: Mrs. Zisner, Mrs. Bartlett, Mrs. Manners, chairman.
STANDING: Mr. Whitcomb, Dr. Marchesi, Miss McCabe.

Although they have no vote in senior executive committee sessions or in senior class meetings, our advisers attend and give us the benefit of their experience. As a group, they helped us to a wonderful senior year.

Mrs. Manners, the chairman, particularly advised the prom committees, the concession committee, the guidance committee, and the Richard Heck Memorial committee. Miss McCabe was our *Coronian* adviser. Mrs. Bartlett supervised the Christmas breakfast. Dr. Marchesi was in charge of all matters connected with the senior play except its actual staging. Mr. Whitcomb's Class Night committee made the end of our year memorable. Mrs. Austin and Mrs. Zisner, as substitutes for Miss Hennings this year, did not have specific assignments, but their real interest helped us very much.

Two other faculty members, who did not have senior homerooms, did outstanding jobs with us and for us. Mr. Lang was the coach who staged *The Mouse That Roared*. Mrs. Freeman, our financial adviser, sparked our magazine campaign and *Coronian* ads and subscriptions so effectively that we could afford the special activities that will always mean "Senior Year" to us.

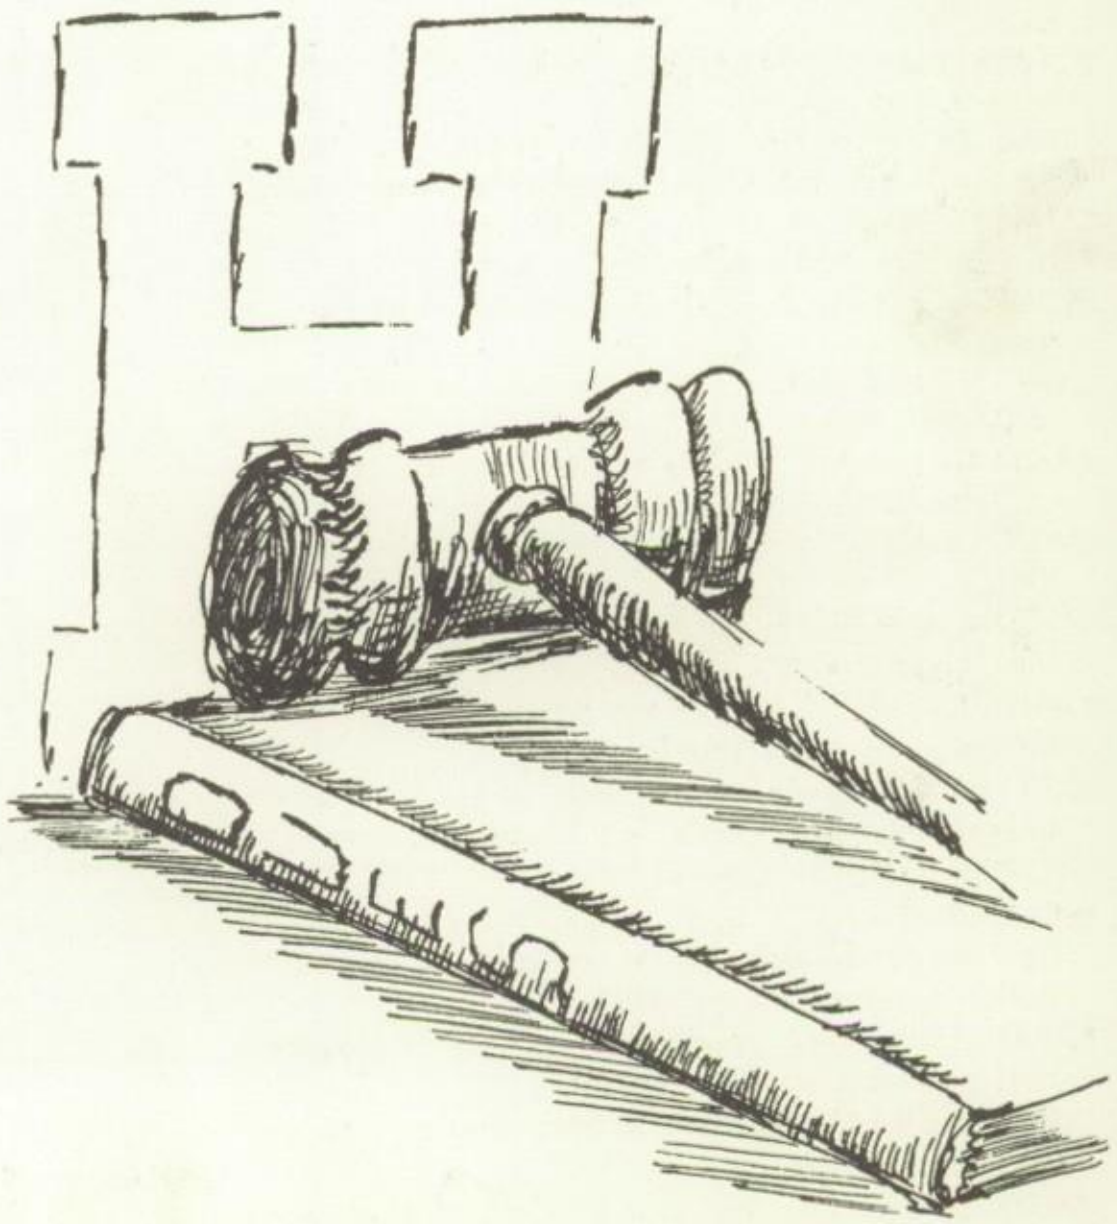
CLUBS



STUDENT COUNCIL

The quality of leadership lies latent in many of us and may go undiscovered, but the Student Council gives each student an opportunity to develop such a talent.

The activity that does the most to promote leadership in the whole student body is Youth Week, when students choose their classmates to assume the duties of the town for one week.

The National Honor Society strives to incite the students of the high school to the same high standards of character, scholarship, leadership, and service that it demands from its members.

Through the sale of the daily *New York Times,* the society raised money for a scholarship to a deserving senior member. Both faculty and students use the *Times* in class work and also to widen and deepen their own information and interests. Anne Healey was in charge of the project this year.

Membership in this National organization is limited to 10 per cent of the junior class and 15 per cent of the senior class. To be eligible, a student must maintain a "B" average in his studies and have shown the qualities of leadership, character, and service. He must also have the approval of 50 per cent of the high school faculty.

In March, the annual induction ceremony was held, followed by a reception in honor of the twenty-six newly-elected members and their parents. The Lions Club of Hasbrouck Heights donated a framed composite portrait of all senior members to the high school, as well as charm bracelets and tie clasps bearing the society's insignia to the graduating members.

The officers of this honorary organization are Joseph Greenberg, president; Joseph Bonanno, vice-president; Josephine DiMaio, secretary; and Carmel Perrotti, treasurer.

The National Forensic League, or the NFL, is one of our honorary organizations. To gain membership in this club, one must earn twenty-five points in sanctioned NFL competition, in the various fields of debate, oratory, extemporaneous discussion, prepared discussion, or the interpretation of dramatic, poetic, or humorous material.

The NFL members this year have participated in too many events to list here. They have also conducted several poetry reading competitions, and participating schools have been very complimentary about the arrangements. Members then present a program for their parents and entertain them at a reception afterwards.

Th adviser, who doubles as our excellent coach, is Mrs. Bartlett. The officers are: Janice Bosnick, president; Jack Malof, vice-president; Pat Buckley, secretary; Charles Roth, treasurer.

New members are taken into our organization at a formal induction in May of every year. Awards and new degrees are conferred.

The Junior Classical League, the official name of our club, is one of the most popular clubs in school. First-year Latin students serve all year as slaves. The gala Roman Banquet in May, which all the upperclassmen attend dressed in Roman attire, marks the emancipation of the slaves.

Through reports the students are acquainted with Rome in its prime, and, through games and films, they are made aware of the value of this language and the effects it has had on our civilization.

Miss Stahl is the club adviser; the officers are Judy Semenecz, president; Susan Beiro, vice-president; Ellen Caddoo, secretary; Carol McAlevey, treasurer.

The main purpose of the French-German Club, whose adviser is Miss Rechnic, is for its members to learn more about the historical and current life of the countries whose languages they are studying. Slides, games, and special reports show them the different aspects of the country they are studying.

This year the French division of the club is making plans to attend a play given in French in New York, something similar to the one they viewed last year.

The officers are Joe Bonanno, president; Barry Gustafson, vice-president; Linda Dubiel, secretary; Kathy Trimble, treasurer.

Mardi Gras attendant, P. Levin; queen, L. Dubiel; attendant, J. Farrell.

A knowledge of the past is necessary for the development of the future. With this in mind, the members of the History Club try to acquire a better understanding of our heritage both as Americans and citizens of the world.

The organization has conducted discussions, lectures, and field trips related to material under study. One such excursion was to see "How the West Was Won," a chronology of events leading to the settlement of the frontier. The club also organized a talent show for the benefit of the Veterans' Hospital in Orange, New Jersey.

Members must be juniors or seniors. The only other prerequisite for membership is a genuine interest in the subject.

Mr. Fedele is the adviser. The officers are Carol McAlevey, president; Carmel Perrotti, vice-president; Susan Beiro, secretary; and Anne Healey, treasurer.

KNEELING, left to right: G. Basralian, C. Roth, R. Osol. STANDING: R. Mancari, Mr. Fedele, T. Sullivan, P. Buckley, K. Trimble, R. Ruymen—*off to one of the meetings for the county mock convention.*

This boys' service organization has devoted time and manpower throughout the year to designs beneficial to the school and community. Under Mr. Mamchur's direction, the Hi-Y members have carried out these projects: In the early part of November they held their very successful "Autumn Queen" Dance, an annual affair; in February they took time out to enjoy a fun-packed weekend at Holiday Hills with the Tri-Hi-Y; in April they solicited for both the Red Cross and the American Cancer Society; all through the spring they were selling school-engraved tee-shirts and delicious candy.

Their many officers are as follows: Eddie Jacobs, president; Karl Epstein, vice-president; Steve Leanheart, treasurer; Joe Bonanno, recording secretary; Peter Sapios, corresponding secretary; Ray Liberti, publicity chairman; John Van Dam, historian; Peter Esposito, junior historian.

The girls willingly give their time to help with charity drives, and to fix Thanksgiving and Christmas baskets for the needy. This year they sponsored a Hazel's Helpers drive to raise money for world service.

These girls mixed business with pleasure by spending a fun weekend at Holiday Hills in February and attending other social and educat'onal functions sponsored by the county and state chapters. In late summer the new officers will attend Officer's Training Camp for a weekend and bring home memories of many fine times.

This year the officers were Arleen Sarapa, president; Eileen Raes, vice-president; Harriet Wen, recording secretary; Joellyn Lagattuta, corresponding secretary; Carol McAlevey, treasurer; Nancy Christen, chaplain; Pam Nelson, historian; and Susan Van Wieren, junior historian, Mrs. Phillips is club adviser.

THE PILOT

Publishing a school newspaper is a great responsibility, and students who work on such a project must develop their characters and personalities in many ways. Reporters must learn to meet people in interviews, to be tactful, and to be accurate in recording information. The editorial staff must prepare all articles before sending them to the printers; this means proofreading, headlining, and spacing various articles and pictures. Many other people also carry a great deal of responsibility: salesmen, secretaries, and photographers.

The *Pilot* is an exceptional example of high school journalism. This year it received second place honors in the Columbia Scholastic Press Association ratings. It also is a member of the Quill and Scroll Honor Society for high school journalists. These honors prove the fine workmanship and team effort that go into our paper.

Mr. Porcelli advises an outstanding editorial staff: Joan Wilga, editor; Linda LaBarba, managing editor; Mariann Aurich, associate editor; Charles Roth, circulation manager; Janet Giuricich, secretary-treasurer; Catherine Garofalo, office manager, and Richard Ruymen, assistant circulation manager.

L. La Barba, managing editor, and J. Wilga, editor-in-chief, check galleys and a hot item.

Quill & Scroll, which is an international honor society for high school journalists, was started in Hasbrouck Heights High School two years ago.

A student is eligible if he is either a junior or senior, ranks in the upper one-third of his class, and has shown superior work in journalism or school publications. In addition, each member must be recommended by the adviser of his publication and approved by the executive secretary of the organization.

Members elected this year were: Joan Wilga, Linda La Barba, Charles Roth, Richard Ruymen, Martha Neu, Cira Profit.

Officers were: Mariann Aurich, president; Harriet Wen, vice-president; Josephine Di Maio, secretary-treasurer.

". . . Mathematics possesses not only truth, but supreme beauty . . ."

The Math Club, now in its second year at the high school, is under the supervision of Mr. Saraby of the mathematics department. Through supplementary texts and group discussions, the club attempts to instill in its members the importance of mathematics, both in itself and in connection with other fields of study.

The group also strives to help members who ask for assistance in any of the fields of mathematics offered at the high school.

The Club is headed by Tom Kazanchy, president; Jeanne Atwood, vice-president; Lynne Steinbauer, secretary; and Richie Kammerer, treasurer.

Oddly enough, the only male member, Joseph Greenberg, is president of the Dramatics Club. Susan Beiro is vice-president; Pauline Lepanto, secretary; and Carol McAlevey, treasurer. Its purpose is to promote interest in fine entertainment among students. At meetings throughout the year the members act out monologues and skits, such as "The Silent Alarm." Mr. Lang is the club's adviser.

FUTURE PHYSICIANS

Newly-formed this year to accommodate the increasing number of students interested in medicine, the Future Physicians Club boasts a charter membership of twelve—Carl Bergquist, Joseph Bonanno, Karl Epstein, Joseph Greenberg, Ed Jacobs, Suzanne Laguerre, Ray Mancari, James Meyer, Carmel Perrotti, Sharon Rand, John Van Dam, Harriet Wen—with interests ranging from biochemistry to dentistry, from psychiatry to pathology.

The group, guided by Mr. Mamchur, is modeled after the National Future Physicians Club to encourage high school students to pursue a medical career and to acquaint them with both the advantages and drawbacks of the profession.

The students have spoken to physicians in such fields of concentration as general practice, dermatology, and surgery. Visits to laboratories, hospitals, and doctors' offices have also broadened the members' concepts of the profession to which they aspire.

FRONT ROW, left to right: S. Rand, S. Laguerre, H. Wen, C. Perrotti. SECOND ROW: P. Mancari, J. Greenberg, J. Meyer. THIRD ROW: C. Bergquist, J. Van Dam, E. Jacobs, Mr. Mamchur.

A newcomer to our roster of clubs, this organization is made up of girls wanting a career helping other people. With Mrs. Gascoyne as the adviser, its officers are: Joan Ganley, president; Kathy Trimble, vice-president; Anne Gilbert, secretary; Nancy Casale, recording secretary; Jan Giuricich, treasurer.

This year, a trip to Fairleigh Dickinson University highlighted the program. There the girls learned about the school's nursing program and toured the campus.

Outside speakers have discussed other schools of nursing in Bergen County. A trip to Hackensack Hospital is planned for this spring. In future years the club hopes to achieve membership in the national organization.

All the hunters and anglers in the school have banded together to form the Rod and Gun Club. This organization devotes its time to the entertainment of its members; that is, it organizes hunting and fishing trips on which its members may go. This year, under the supervision of Mr. Clarke, the boys have seen many films pertaining to their interests, hunting and angling.

The officers of this club are: George Jackson, president; Paul Gac, secretary; Dennis D'Appolonio, treasurer.

Weiner, R. Heuermann, R. Meskis, J. Greenberg, G. Munz, F. Zilian.

This high school version of the Kiwanis Club devotes its time to the service of the community and the school, and sets high scholastic achievement and avid athletic participation as its goals. The Key Club members accomplished many important tasks this year. They polished the school trophies, which were sorely in need of a cleaning. They held their annual, and this time very successful, dance. They went door to door selling Christmas wrapping paper, and only recently collected, again door to door, for the Heart Fund.

The work and tedium of the year are topped off in April by the annual Key Club New Jersey District Convention, held traditionally in Atlantic City. It is the hope of all Key Clubbers that they may attend this convention, at which the state officers for the next year are elected.

The club has Dr. Montgomery as its adviser, and its officers are as follows: Robert Searson, president; Carl Bergquist, vice-president; Steve Leanheart, secretary; Alan Farber, treasurer.

The main function of the club is to provide jackets for those of its members who have participated in any one sport for two years, and have earned their varsity letter anywhere in the process. The club also awards each member upon his graduation a gold or silver charm for the team on which he has played.

The club adviser is Mr. Depken. The officers are: Bob Searson, president; John Van Dam, vice-president; Joe Iannucci, secretary; Tim Urbanek, treasurer.

FOOTBALL

With the Aviators finishing with a record of five wins and four losses, the 1963 season proved to be a fairly successful one! In this "rebuilding year," the team was involved in many exciting games, including a great 9-0 upset victory over Tenafly and a close 14-13 decision against rival Wood-Ridge on Thanksgiving Day.

Individual honors went to Tom Klein, Joe Corso, and Bob Kroncke. Klein was placed on the B.C.S.L. All Stars and the Bergen-Passaic All-Star team while Corso made First team B.C.S.L., and Kroncke, Second team B.C.S.L.

Varsity Coach Fedele was aided by Mr. Masucci and Mr. Haug for the Junior Varsity and Mr. Mezejewski and Mr. Bolmarcich for the freshman team, which turned in a fine, undefeated season this past year.

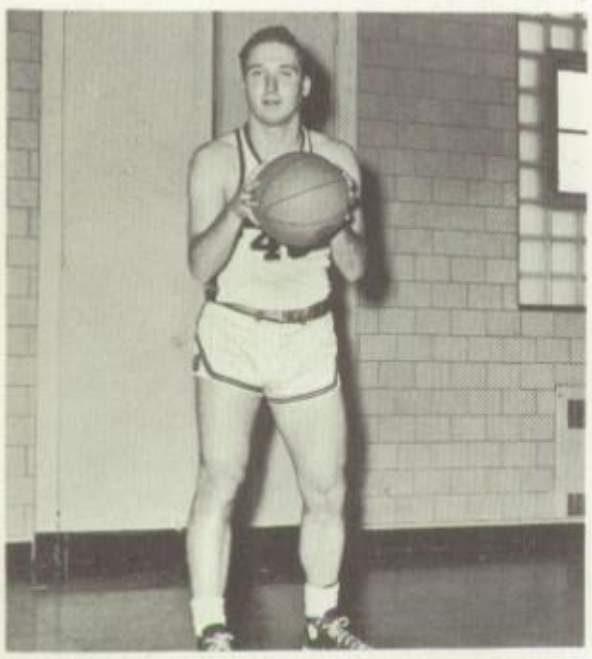
BASKETBALL



A. CLANCEY

The varsity squad under Mr. Mezejewski showed plenty of fight this season, and the team played fairly well considering their lack of height.

Although our record was not impressive, with rebounder John Van Dam under the boards; outside shooter, John Badishian; quick driver, Danny Vecchio; and all-around star Alan Clancey on the court, the people in the stands were given many moments to cheer. Seniors Karl Epstein and Chester Groncki gave the Aviators added punch as did two fine juniors, John Molnar and Pete Jerauld. Clancey received recognition for his outstanding play: honorable mention for the Passaic-Bergen All Stars and second team B.C.S.L. All Stars.

The Junior Varsity turned in a fine season under their coach, Mr. Barakat, and Mr. Godowski's freshman squad showed some good prospects for a future championship team.

Rounding out the basketball season was a bruising battle between the Heights faculty and members of the town police department — and the faculty won!

The 1964 season looks good for the Aviators with the return of eight varsity lettermen. Coach Depken will be stressing hitting this year as the team lacks the explosive power of some of the other clubs.

The players expected to lead the team to success are co-captains John Van Dam and Tim Urbanek in the infield; outfield star, Bill Easter; good-hitting second baseman, John Molnar; pitchers, Jack Draksler and Pete Jerauld; and sophomore slugger, Fred Zilian.

Aiding Varsity Coach Depken will be Mr. Barakat for junior varsity and Mr. Morrow for the freshman squad.

In its second year of scholastic competition, our long-distance men finished the season with no wins but strong hopes for next year. The reason for the lack of victories was mainly the inexperience of the team.

Captain Bob Searson, a veteran of last year, turned in many fine performances. He was paced by seniors, Al Clancey, John Van Dam and Rich Macaluso, all runners for their first year. The boys were under the direction of Mr. Pevny.

Now in its second year of competition, our tennis team under the able direction of Mr. Mamchur, has been practicing hard and is looking toward a very successful season in 1964.

Barry Gustafson, the only senior on the squad, will be backed by juniors Tom Sullivan, Bob Polcari, Kent Hansen, and Joe Iannucci, all veterans of last year, to name just a few.

Response to this sport has increased and before long, tennis will rank among the major scholastic sports activities.

T. URBANEK

Now in its second year of B.C.S.L. competition, our high school team ended its season with a record of seventeen wins and sixteen losses, good for the third place in the league.

Special honors went to captain, Tim Urbanek, who received a trophy for high individual average in the league. His 188 mark for the entire season was five pins ahead of his nearest rival. This was the second successive year that Urbanek captured high-average honors.

With six juniors returning next year, the prospects for an improved record seem very good. In addition to the regular season this year, the boys participated in the Bergen County tournament in March under the direction of Mr. Depken, adviser.

BAND

We have already mentioned the band in our curriculum section, but our marching band forms a vital part of the thrills and excitement of our football season. Its participation in various exhibitions stimulates members to greater efforts. As the end of the year approaches, we find Mr. Thomson and his hardy crew again practicing on our back field, preparing for the Memorial Day parade, when Joanne Vrablik, our majorette will lead her group for the last time.

LEFT TO RIGHT: P. O'Hea, P. Buckley, A. New, J. Semenecz, J. Burchill, L. Dubiel, C. Langer.

COLOR GUARD

Highstepping, military, the Hasbrouck Heights High School Color Guard proudly and capably displays our colors at football games, assemblies, and parades, as well as the Teaneck Festival of Bands.

Carol Duciewicz is captain and senior members are Pam Nelson, Carol McAlevey, and Kathy Haverty, substitute; the juniors are Eileen MacHugh and Joellyn Lagattuta.

TWIRLERS

An integral part of many of our band performances is the group known as the Twirlers. These girls practice long, arduous hours to perfect both their individual and their ensemble work. This year Judy Semenecz has been captain of an exceptionally spirited squad.

CHEERLEADERS

FRONT ROW, left to right: K. Majoros, L. Patrick, M. Corpina, R. Reardon, D. Hagopian. SECOND ROW: P. Sharp, K. Lukacsy, L. Fitzgerald, J. Tirella, P. Ryan—Our Varsity Cheerleaders.

VARSITY CHEERLEADERS

This year we have had one of the best cheering squads. The girls have led our cheering at all football and basketball games as well as in pep rallies. They have worked hard and have spent much time practicing old routines and creating new ones. All this effort has paid this year for they won second place in the Westwood Spring Cheering Tournament. Our school should be very proud of them because they are a credit to us.

IN FRONT OF GROUP: M. Zahn. KNEELING, left to right: L. Atwood, M. Kammerer, D. Raisch, D. Siraki, L. Horan. STANDING: B. Gustafson, E. Bonacorte, L. Zukawski, M. Mason, M. Buckley. Absent: M. Lukacsy and M. Cook—Our JV Squad.

J.V. CHEERLEADERS

To back up our J.V. basketball games we have a group of peppy, spirited girls. They work hard to become varsity Cheerleaders in the near future.

LEFT TO RIGHT: J. Van Dam, president; M. Sartori, secretary; R. Osol, vice-president; M. Dotzauer, treasurer.

ATHLETIC ASSOCIATION

The Athletic Association is responsible for the management, maintenance, and financial backing of the athletic program in our high school. Each class has an equal voice in the organization since it sends one representative to each meeting.

Executives are elected each year and are usually from the four classes also. Our adviser is Mr. Depken, Director of Athletics.

GIRLS ATHLETIC ASSOCIATION

Any girl may participate in the intramural activities sponsored by the G.A.C. Basketball, volleyball, kickball, and bowling are some of the sports offered which give her the opportunity to obtain points toward a shield and letter. Membership is open to those girls who have accumulated the required number of points.

Under this year's expanded program and Mrs. Sill's supervision, students attended exhibitions of athletic skill, play days, and a camp for the week-end. The basketball game between the girls and the women faculty was the highlight of the year.

Officers are Beverly Mentes, president; Doranne Baker, vice-president; Joan Mirandy, secretary; and Andrea Fournier, treasurer.

FIRST ROW, left to right: B. Gustafson, M. Nieradka, J. Joseph, D. Baker, J. Mirandy, M. Kammerer, M. Dotzauer, R. Radley, C. Jerauld, V. Bell. SECOND ROW: A. Tort, M. Aurich, M. Taylor, D. CARICATURE FROM HARPER'S WEEKLY, 1864

Thought for February 12th

A tall man
came along
about a hundred years
ago
and taught us a lesson
perhaps some of us
tend to forget.
What a man is,
what he can do,
what he has to say—
these are more important
than whence he came,
where he lives,
or what he looks like.
Heredity,
environment,
appearance
and education
are not of themselves
passports to stature.
The components of any
success are difficult to
isolate,
let alone assess.
There would be no
cut diamonds
if there were no
uncut diamonds first.
Would you let a Lincoln wart
overshadow a Lincoln virtue?
"What is a weed?" asked
Dr. Emerson.
"A plant whose virtues
have not been
discovered."
